

ABF PCSI 2017 Pre-conference workshops 9 - 10 October 2017 Hilton Sydney

Monday, 09 October 2017						
	Dubbo Base Hospital	Royal Prince Alfred Hospital	Room 1	Room 2 & 3	Room 4	
09:30		Royal Prince Alfred Hospital site visit (09:30 - 12:30)	An introduction to Activity Based Funding Dr Stephen Duckett	Comparing apples – an introduction to healthcare classification development in Australia Alix Higgins	A smooth introduction to case mix for newcomers Jean Marie Rodrigues, Dana Burduja, Terri Jackson	
10:00	Dubbo Base Hospital site visit (10:00 - 14:30)			Morning tea break		
10:30 - 11:00				An introduction to Activity Based Funding (cont.) Dr Stephen Duckett	Comparing apples – an introduction to healthcare classification development in Australia (cont.) Alix Higgins	A smooth introduction to case mix for newcomers (cont.) Jean Marie Rodrigues, Dana Burduja, Terri Jackson
11:00				Lunch break		
12:30 - 13:30				Using the AR-DRG classification system Joanne Fitzgerald, Sean Heng, Anne Elsworthy, Ning Ding	Improving population health management through risk adjustment Dr Stephen Sutch, Karen Kinder	The case mix journey Jacob Hofdijk
14:00				Afternoon tea break		
14:30				Using the AR-DRG classification system (cont.) Joanne Fitzgerald, Sean Heng, Anne Elsworthy, Ning Ding	Improving population health management through risk adjustment (cont.) Dr Stephen Sutch, Karen Kinder	The case mix journey (cont.) Jacob Hofdijk
15:30 - 16:00						
16:00						

Tuesday, 10 October 2017			
	Room 1	Room 2 & 3	Room 4
09:30	An international view with case studies and a look into the future of value-based funding Dr Mary E Black, Prof Beth Reid, Dr Vivek Muthu	Australian pricing models: understanding the NEP and NEC Dr Sarah Neville	Funding safety and quality: the West Australian experience Dr Hannah Seymour, Dr Amanda Ling
10:30 - 11:00	Morning tea break		
11:00	An international view with case studies and a look into the future of value-based funding (cont.) Dr Mary E Black, Prof Beth Reid, Dr Vivek Muthu	Australian pricing models: understanding the NEP and NEC (cont.) Dr Sarah Neville	Funding safety and quality: the West Australian experience (cont.) Dr Hannah Seymour, Dr Amanda Ling
12:30 - 13:30	Lunch break		
13:30	Pricing for safety and quality: the Australian approach Dr Sarah Neville, Sean Heng	Patient costing principles Patrick Power, Philip Moore	Using data to tackle clinical and quality issues Dr Michael Wilke
15:30 - 16:00	Afternoon tea break		
16:00	Pricing for safety and quality: the Australian approach (cont.) Dr Sarah Neville, Sean Heng	Patient costing principles (cont.) Patrick Power, Philip Moore	Using data to tackle clinical and quality issues (cont.) Dr Michael Wilke
18:00 - 20:00	Networking drinks John Cadman II - Captain Cook Cruises		

Wednesday, 11 October 2017					
Grand Ballroom					
09:15 - 10:00	Conference opening				
09:15	Welcome to country				
09:30	Introductory session - Shane Solomon , Chair, Independent Hospital Pricing Authority and Dana Burduja , President, Patient Classification Systems International				
10:30 - 11:00	Morning tea break/Exhibition and poster viewing session				
11:00	Keynote: Impacts of ABF on hospital quality and productivity – Dr Zeynep Or , Research Director, Institute for Research and Information in Health Economics				
12:00	Plenary: Benchmarking clinical costing – Mr Mark Lawrence , Vice President, Healthcare Financial Management Association				
12:30 - 13:30	Lunch break/Exhibition and poster viewing session				
	Grand Ballroom	Room 1	Room 2 & 3	Room 4	Room 5
13:30 - 15:00	New classification development	Benchmarking using data collection systems and big data	Value based purchasing	Patient classification and coding	About our Data and Data Quality
13:30	Improving care coordination through information Dr Karen Kinder	Benchmarking variation in coding across hospitals in Canada: A data surveillance approach Lori Kirby	Would you like some value with that? The journey to unleashing better value health care in NSW Liz Hay, Jennie Pares	Reviewing established grouping parameters: Comorbidity level in CMG+ Minh Duong-Hua	Improving data quality in an Activity Based Funding environment Brian Donovan
13:50	Leading the way in community-based care casemix systems Jenny Mcnamee	Engaging clinicians and managers early on Hospital Acquired Complications: results of a novel approach developed in Australia and Ireland to improve the quality of coded data Dr Mary Black, Paul O'Connor	Value-based health care: Implications of patient-reported outcomes for DRG payment policy Prof Jason Sutherland	Developing and anchoring a DRG-system Jesper Iwersen	Examining variability in the cost of a standard hospital stay Adam Rondeau
14:10	Uses of DRG systems in Finnish health care organisations Petra Kokko	Understanding variation in demand for gastrointestinal endoscopies through benchmarking across local areas Pierre Toureau	Implementing premium payments in hip fracture care delivered improved time to operation across three teaching hospitals in Western Australia Dr Hannah Seymour	Western Australia state-wide training and education program - Australian Mental Health Care Classification Bing Rivera, Leone Van Ewijk	Health care provider claim data (HPCD) repository Rudi Yulianto
14:30	A new patient classification for elderly in long-term care in France Dr Marie-Caroline Clement	Understanding the classification system for accurate benchmarking Gowri Sriraman	Scan for Surgery at St James's, Dublin Simon Moores	Is ICHI able to replace ICD-9-CM procedures codes for casemix? Jean Marie Rodrigues	Towards nationally consistent allied health data – the journey so far Kristy Perkins
15:00 - 15:30	Afternoon tea break/Exhibition and poster viewing session				
	Grand Ballroom			Room 1	
15:30	Local panel session – Jurisdictional updates			PCSI AGM: Part 1	

Thursday, 12 October 2017					
Room 1					
08:00	PCSI AGM: Part 2 Grand Ballroom				
09:00	Keynote: The 11th Revision of the International Classification of Diseases - Prof James Harrison , Steering Group Member, World Health Organisation				
10:00	Plenary: CIHI's population grouping methodology: beyond predicting cost - Yvonne Rosehart , Program Lead, Canadian Institute for Health Information				
10:30 - 11:00	Morning tea break/Exhibition and poster viewing session				
11:00	International panel session: Progress towards value based healthcare				
12:30 - 13:20	Lunch break/Exhibition and poster viewing session				
	Grand Ballroom	Room 1	Room 2 & 3	Room 4	Room 5
13:20 - 15:00	<i>New classification development</i>	<i>Patient costing</i>	<i>Value based purchasing</i>	<i>Clinical documentation and coding including ICD-11</i>	<i>Clinical management in an activity based funding environment</i>
13:20	Mental health phase of care, a new concept in mental health: Clinicians' views and findings from an inter-rater reliability study Dr Tim Coombs, Vanessa D'Souza	Costing emergency department care – a national study Aaron Balm	The role of value-based purchasing to improve patient outcomes: The journey begins Peter Axten	Field testing ICD-11: Comparing results from three national centres Dr Olafr Steinum	Clinical management in an Activity Based Funding environment – 'Providing opportunities not to be sniffed at' Michael Lewczuk, Stuart Bowhay
13:40	Exploring an inpatient mental health case-mix and funding model in Ontario, Canada: Lessons learned Sandro Serino	Providing current patient cost estimates in Canadian hospitals Adam Rondeau	Introduction of innovation into an Activity Based Funding system in Ontario Dr Imtiaz Daniel	SNOMED CT and ICD11: Two terminological resources to be reconciled Jean Marie Rodrigues	Operating Theatre Productivity Index John Marshall, Jennie Pares, Joshua Tatham
14:00	Developing a national short list for principal diagnosis reporting in the emergency department Anne Elsworthy	Quebec and its approach to patient level costing Patrick Power	How can we implement a more data-rich and data driven health system – observations from mixed professional round table discussions in Australia, 2016 Dr Ozren Tosic, Paul O'Connor	Field testing ICD-11 in Australia Brooke Macpherson	A new scoring system to predict the risk of multiresistant pathogens in pneumonia and sepsis validated using 'big data' analyses on DRG routine data Dr Michael Wilke
14:20	Australian emergency care classification development Jim Pearse	Analysis of factors affecting hospital costs of old inpatients in Belgium Julie De Foor	Using ABF to shift from volume to value in screening services Deniza Mazevska, Mary Mitchelhill	Can you draw casemix? A graphic facilitator's view of improving the quality of clinical coding Dr Mary Black, Charlie Taylor	Changing incidence low value knee arthroscopy procedures Australian private sector Dr Brian Hanning
14:40	This is no time for backslapping; estimating patient attributable clinician time in emergency departments by consensus Joel Tuccia	Beyond casemix: Introducing integrated funding to kill silos Jacob Hofdijk	Segmenting and projecting public hospital patient activity and assisting the annual purchasing budget cycle, a novel approach Kevin Ratcliffe	More than words: A rural perspective on a multi-layered approach to clinical documentation improvement Kelly Lupish	How much direct care counts towards the patient experience? Frank Mutel
15:00	Afternoon tea break/Exhibition and poster viewing session				
Grand Ballroom					
15:30	Keynote: Japanese case mix - Prof Shinya Matsuda , Vice Director, University of Occupational and Environmental Health Hospital				
19:00 - 22:30	Conference dinner Art Gallery of NSW				

Friday, 13 October 2017					
Grand Ballroom					
09:30	Plenary: Safety and quality in health care - James Downie , Chief Executive Officer, Independent Hospital Pricing Authority				
10:30 - 11:00	Morning tea break/Exhibition and poster viewing session				
11:00	Keynote: Reducing avoidable readmissions effectively - Mark Sonneborn , Vice President, Information Services, Minnesota Hospital Association				
	Grand Ballroom	Room 1	Room 2 & 3	Room 4	Room 5
12:00 - 12:40	Activity Based Funding and safety and quality	Benchmarking using data collection systems and big data	Patient costing	New classification systems	Funding and casemix
12:00	Activity Based Funding: Transformation of academic research into public policy Prof George Palmer	Benchmarking for improved health outcomes Justin Cowan	Discovering the true cost of inpatient care Caitriona Ryan	Evolution of the French classification for non-acute activity Nicolas Dapzol	Managing clinical variation to improve patient care and drive cost efficiency Brendon McMullen
12:20	Safety of Australian hospital care Dr Stephen Duckett	Administrative databases and clinical expertise: A synergy to detect hurdles in Belgian day-surgery practice Cécile Camberlin	Casemix costing sensibility to coders' personal skill and coding systems for diagnosis and procedures Jean Marie Rodrigues	Revisiting inpatient rehabilitation case-mix and funding model in Ontario, Canada: Lessons learned Dr Imtiaz Daniel	Using IHPA national weighted activity unit (NWAU) data to inform the GST distribution – a data user's perspective Alison Harper
12:40 - 13:40	Lunch break/Exhibition and poster viewing session				
13:40 - 15:10	Using Activity Based Funding to drive safety and quality	Benchmarking using data collection systems and big data	Population health and integrated care	New classification systems	Patient classification and clinical coding
13:40	The analytical journey through safety and quality Sean Heng, Roland Fan	Reporting the efficiency of Australia's public hospitals on the MyHospitals website Eve Kelly	Measurement of health organisation performance across multiple sector services: A population health analytic perspective Dr Stephen Sutch	Development of the Australian Non-Admitted Care Classification system: Results from a targeted costing study Divyani Bhatnagar, Jaclyn Chan	Analysis of casemix changes in hospital emergency care 2010-2015 in Stockholm county council Dr Eva Zeisig
14:00	Preventable readmissions: Clinical review of discordant results Dr Marc Berlinguet	Health national data set and numerous activity-based management tools: Need of harmonisation Dr Marie-Caroline Clement	A mutually exclusive classification for a canadian population grouping methodology: Health profile groups Yiwen Chen	Developing a new non-admitted care classification in a fast-evolving healthcare environment Caroline Coevoet, Louise Kershaw	Development of an episode oriented DRG-system in Denmark Jesper Iwersen, Pernille Rosling
14:20	Getting ready for the new Patient Safety Quality Pricing framework Naomi Beveridge, Roland Fan	Developing a value-conscious culture of healthcare delivery through benchmarking of clinical outcomes and costs Dr Eng Kok Lim	Making use of the Johns Hopkins ACG® system in primary care Peter Rushton, Warwick Neilley	ADRG splitting methodology in AR-DRG v 9.0 Dr Michael Navakatikyan	Improving the reliability of clinical coding: DRG outcome or clinical truth? Kevin Ratcliffe, Dr John Marrone
14:40	Finding the balance: A deep dive into risk adjustment Sean Heng, Mireille Campbell	Inter-hospital benchmarking by APR-DRGs on medical and financial data: A tool to promote efficiency and quality of care inside hospitals Alexandre Audibert, Maité Jonas	Enhancing integration of primary and secondary care data with routine test results into longitudinal data records for population health analysis Dr Stephen Sutch	New classification development of grouping INA-CBG Grouper Dr Kalsum Komaryani	
15:10 - 15:40	Afternoon tea break/Exhibition and poster viewing session				
15:40 - 17:00	Grand Ballroom				
15:40	Conference wrap up
